Forward-Looking Statements

The information furnished in this presentation contains "forward-looking statements" within the meaning of the federal securities laws. Forward-looking statements include goals, projections, estimates, expectations, market outlook, forecasts, plans and objectives, including revenue and new product revenue and other projections, project bookings, bidding and service activity, acquisition opportunities, forecasted supply and demand, forecasted drilling activity and subsea investment, liquidity, cost savings, and share repurchases and are based on assumptions, estimates and risk analysis made by management of Dril-Quip in light of its experience and perception of historical trends, current conditions, expected future developments and other factors. No assurance can be given that actual future results will not differ materially from those contained in the forward-looking statements in this presentation.

Although Dril-Quip believes that all such statements contained in this presentation are based on reasonable assumptions, there are numerous variables of an unpredictable nature or outside of Dril-Quip's control that could affect Dril-Quip's future results and the value of its shares. Each investor must assess and bear the risk of uncertainty inherent in the forward-looking statements contained in this presentation.

Please refer to Dril-Quip's filings with the SEC for additional discussion of risks and uncertainties that may affect Dril-Quip's actual future results. Dril-Quip undertakes no obligation to update the forward-looking statements contained herein.

Use of Non-GAAP Financial Measures

Adjusted Net Income, Adjusted Diluted EPS, Adjusted EBITDA and Free Cash Flow are non-GAAP measures. Adjusted Net Income and Adjusted Diluted EPS are defined as net income (loss) and earnings per share, respectively, excluding the impact of foreign currency gains or losses as well as other significant non-cash items and certain charges and credits. Adjusted EBITDA is defined as net income excluding income taxes, interest income and expense, depreciation and amortization expense, non-cash gains or losses from foreign currency exchange rate changes as well as other significant non-cash items and items that can be considered non-recurring. Free Cash Flow is defined as net cash provided by operating activities less net cash used in the purchase of property, plant and equipment. We believe that these non-GAAP measures enable us to evaluate and compare more effectively the results of our operations period over period and identify operating trends by removing the effect of our capital structure from our operating structure and certain other items including those that affect the comparability of operating results. In addition, we believe that these measures are supplemental measurement tools used by analysts and investors to help evaluate overall operating performance, ability to pursue and service possible debt opportunities and make future capital expenditures. These measures do not represent funds available for our discretionary use and are not intended to represent or to be used as a substitute for net income or net cash provided by operating activities, as measured under U.S. generally accepted accounting principles. Non-GAAP financial information supplements should be read together with, and are not an alternative or substitute for, our financial results reported in accordance with GAAP. Because non-GAAP financial information is not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures. GROWING ADDRESSABLE TREE MARKET

2018 – 1H 2019

- More than doubled current addressable subsea tree market with the introduction of the HorizontalBoreTM Production Tree
- Received five subsea tree orders in Q2 2019 including an initial order for two horizontal subsea trees

2H 2019 & Beyond

- Further increase market presence by:
 - Increasing customer base and expanding scope to existing customers
 - Obtaining compliance with regulatory standards in target markets
 - Progressing leading-edge, differentiated solutions

Focused Efforts to Continue SPS Growth Trajectory

New Product Success

Subsea Production Systems

 Focused R&D efforts doubled addressable tree market yielding increased quote activity and bookings

Wellheads

 Expanded customer commitments for new subsea wellhead technology – including conversions, new equipment, and stocking plans

Wellhead Connectors

- Received 1st order for wellhead system specifying the DXe^{TM} profile
- Connector profile licensed to three large peers

Casing Connectors

• Received 1st order for high strength, high fatigue BadgerTM Connector

FORGE OPERATIONS UPDATE

Entered Into Agreement with AFGlobal Corp. to Assume Forge Operations

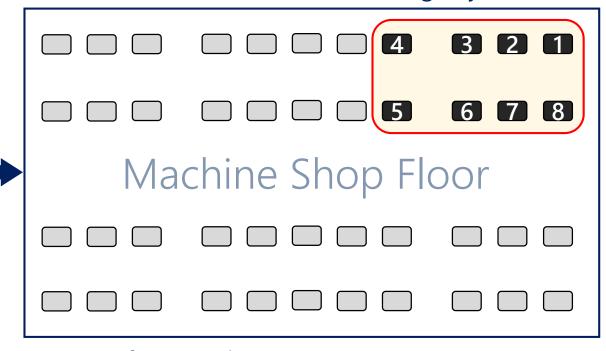

- Lease of Forge, Heat Treat, Rough Machining, and Mechanical Lab facilities and equipment with option to buy
- Will continue to support Dril-Quip's manufacturing demand for forgings
- Contributes \$11 \$13 million annually towards transformation target, which exceeds prior estimates
 - Achieves overall cost savings target of \$40 \$50 million

CELLULAR MANUFACTURING ILLUSTRATION

Before: Conventional Manufacturing Layout

 Total distance travelled for a part could be measured in miles After: Cellular Manufacturing Layout

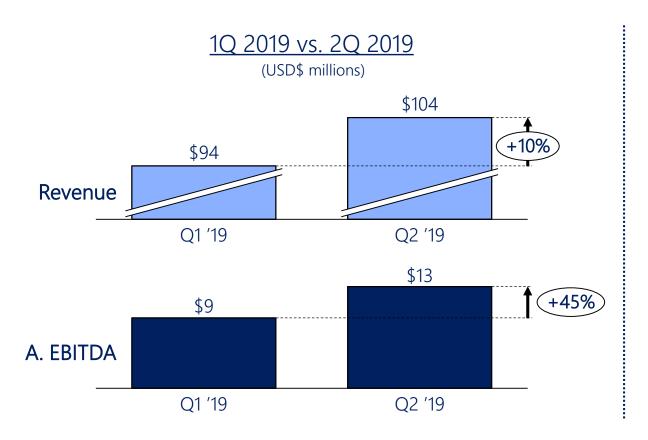

- Significant reduction in part movement
- Increased machine utilization
- Concentration of value-add activity

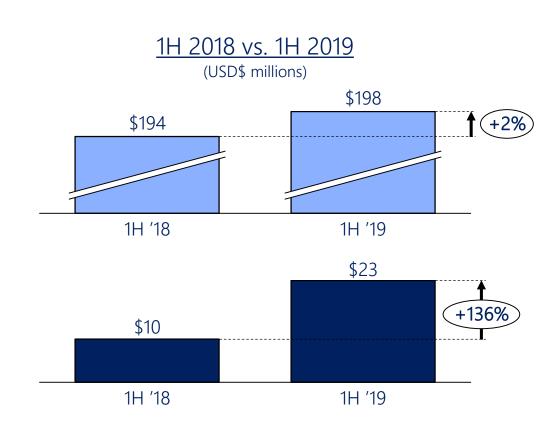

EARLY SUPPLY CHAIN SAVINGS

Expedited Savings Contributed \$3 Million to 2ND Quarter Savings*

Adjusted EBITDA Progression

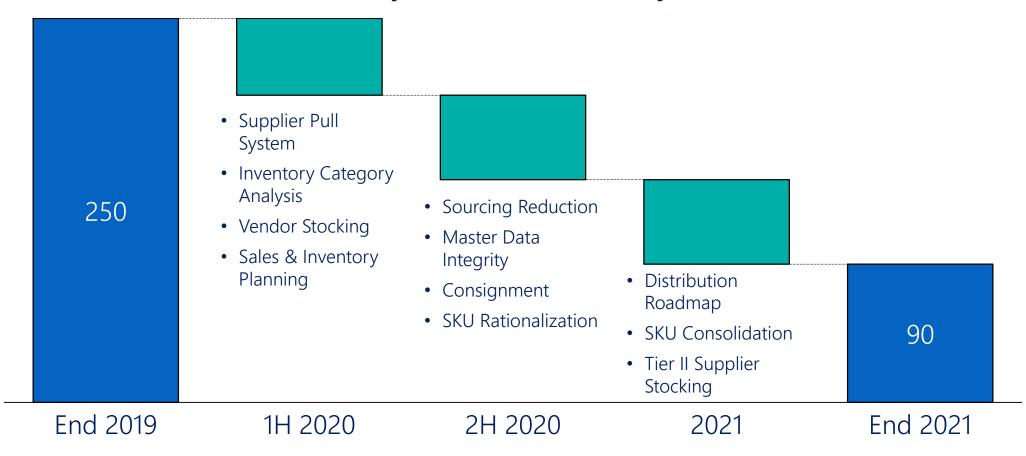

• Transformation on track – Achieved annualized savings of \$13 million in 1H '19, which was partially offset by employee compensation merit increases and partial restoration of prior salary rollback
