

### Disclaimer | Cautionary Statement

#### **Forward-Looking Statements**

The information furnished in this presentation contains "forward-looking statements," including those related to goals, projections, estimates, expectations, market outlook, forecasts, plans and objectives, including revenue and new product revenue, capital expenditures and other projections, project bookings, bidding and service activity, acquisition opportunities, forecasted supply and demand, forecasted drilling activity and subsea investment, liquidity, cost savings, and share repurchases, within the meaning of the federal securities laws. These statements are subject to risks, beyond the Company's control, including but not limited to, the effects of the COVID-19 pandemic, and the effects of actions taken by third parties including, but not limited to, governmental authorities, customers, contractors and suppliers, in response to the ongoing COVID-19 pandemic, the impact of actions taken by the Organization of Petroleum Exporting Countries (OPEC) and non-OPEC nations to adjust their production levels, the impact of general economic conditions, including inflation, on economic activity and our operations, the general volatility of oil and natural gas prices and cyclicality of the oil and gas industry, declines in investor and lender sentiment with respect to, and new capital investments in, the oil and gas industry, project terminations, suspensions or scope adjustments to contracts, uncertainties regarding the effects of new governmental regulations, the Company's international operations, operating risks, the impact of our customers and the global energy sector shifting some of their asset allocation from fossil-fuel production to renewable energy resources, and other factors detailed in the Company's public filings with the SEC, and are based on assumptions, estimates and risk analysis made by management of Dril-Quip, Inc. ("Dril-Quip") in light of its experience and perception of historical trends, current conditions, expected future developments and other factors. No assurance can be given that actual future results will not differ materially from those contained in the forward-looking statements in this presentation.

Although Dril-Quip believes that all such statements contained in this presentation are based on reasonable assumptions, there are numerous variables of an unpredictable nature or outside of Dril-Quip's control that could affect Dril-Quip's future results and the value of its shares. Each investor must assess and bear the risk of uncertainty inherent in the forward-looking statements contained in this presentation.

Please refer to Dril-Quip's filings with the Securities and Exchange Commission ("SEC") for additional discussion of risks and uncertainties that may affect Dril-Quip's actual future results. Dril-Quip undertakes no obligation to update the forward-looking statements contained herein.

#### **Use of Non-GAAP Financial Measures**

Adjusted Net Income, Adjusted Diluted EPS, Adjusted EBITDA and Free Cash Flow are non-GAAP measures. Adjusted Net Income and Adjusted Diluted EPS are defined as net income (loss) and earnings per share, respectively, excluding the impact of foreign currency gains or losses as well as other significant non-cash items and certain charges and credits. Adjusted EBITDA is defined as net income excluding income taxes, interest income and expense, depreciation and amortization expense, stockbased compensation, non-cash gains or losses from foreign currency exchange rate changes as well as other significant non-cash items and items that can be considered non-recurring. Free Cash Flow is defined as cash provided by operating activities less cash used in the purchase of property, plant and equipment. We believe that these non-GAAP measures enable us to evaluate and compare more effectively the results of our operations period over period and identify operating trends by removing the effect of our capital structure from our operating structure and certain other items including those that affect the comparability of operating results. In addition, we believe that these measures are supplemental measurement tools used by analysts and investors to help evaluate overall operating performance, ability to pursue and service possible debt opportunities and make future capital expenditures. These measures do not represent funds available for our discretionary use and are not intended to represent or to be used as a substitute for net income or net cash provided by operating activities, as measured under U.S. generally accepted accounting principles ("GAAP"). Non-GAAP financial information supplements should be read together with, and is not an alternative or substitute for, our financial results reported in accordance with GAAP. Because non-GAAP financial information is not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures. Reconciliations of these non-GAAP measures to the most directly comparable GAAP measure can be found in the appendix.

#### **Use of Website**

Investors should note that Dril-Quip announces material financial information in SEC filings, press releases and public conference calls. Dril-Quip may use the Investors section of its website (<a href="www.dril-quip.com">www.dril-quip.com</a>) to communicate with investors. It is possible that the financial and other information posted there could be deemed to be material information. Information on Dril-Quip's website is not part of this presentation.

## About Us

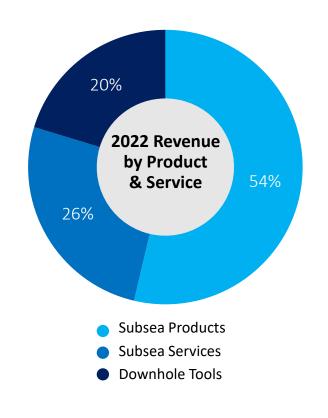

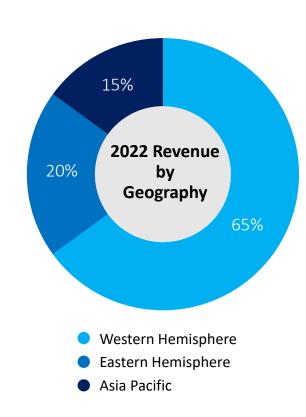

## Who We Are | Dril-Quip Overview

Dril-Quip, Inc. is a leading developer of innovative technologies for the energy industry, designing and manufacturing best-in-class products for traditional oil and gas, and certain energy transition applications.

\$1.02B	Market Cap <sup>1</sup>
Houston, TX	Headquarters
\$362.1 Million	2022 Revenue
NYSE since 1997	DRQ
Operations	18 Countries

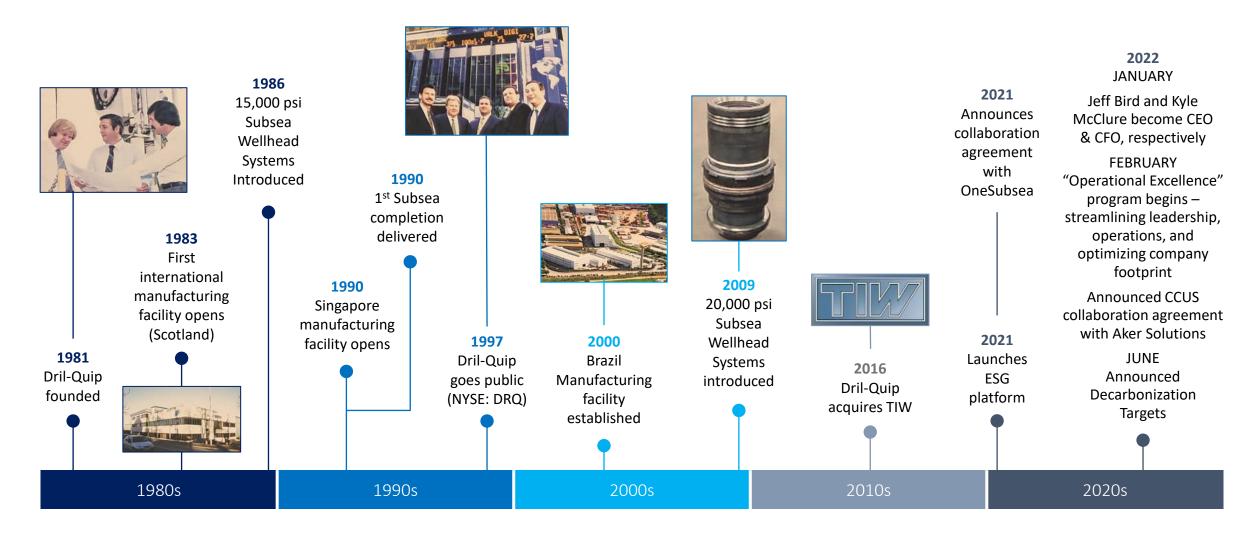

Notes: As of 2/21/23

## Our History | Dril-Quip Over the Years

## Investment Thesis | Why Dril-Quip

Dril-Quip provides a balanced investment proposition to growth and value investors, supported by a long history of commanding premium valuation.

## Leader in Design & Manufacturing

Manufacturer of highly engineered drilling & production equipment

# Footprint in Key Offshore Drilling Markets

Competing in attractive long-term growth markets

## Organizational Alignment

Small, self-contained teams that share a common strategy and control their own destiny

## **Strong Financial Profile**

Continued progression on key organic initiatives that will drive profitable growth

## Attractive Balance Sheet

One of very few oilfield service companies with balance sheet optionality

## Operations | Global Footprint

Dril-Quip is well positioned to serve the needs of the global energy industry with major manufacturing facilities in the United States (Texas), Scotland, and Singapore; and service facilities in Australia, Ecuador, Mexico, Norway, China, Egypt, Ghana, and Qatar.

- Engineering, Manufacturing, Sales & Service
- Sales and/or Service
- Sales Representatives

#### **Customers** | Extensive Customer Portfolio

Our products are used by major integrated, independent, and foreign national energy companies throughout the world, and we are known for solving customers' most challenging problems with equipment that performs reliably, safely, and cost-effectively in deepwater, harsh environments, and severe service applications.

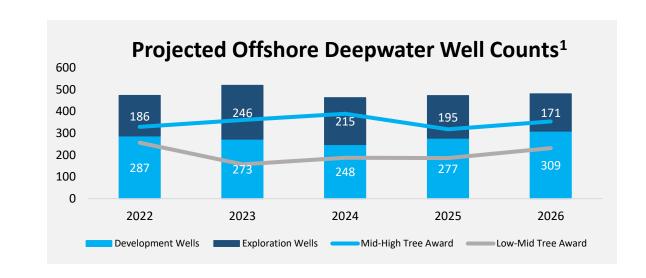

## Macro Environment | Conducive Market & Outlook

## Increasing tender volume and average quote value remains above pre-pandemic levels

- Compelling supply and demand fundamentals in traditional energy requirements and energy transition needs
- Supportive commodity prices and stability favorable for durable investment
- Oil & Gas demand is strong and showing resilience in uncertain economic conditions regionally
- International Energy Agency forecast Oil & Gas demand growth of 1.9 million barrels per day to 102 million total barrels per day in 2023
- Tight supply, modest production and growing demand indicate ongoing investment
- Energy security spurring investment, projects, partnerships and increased offshore exploration
- Focus on decarbonization supporting R&D and ongoing investment across the space

## Macro Environment | Growth in Offshore Drilling Demand

Dril-Quip is well positioned to capitalize on a constructive offshore market with strong growth trends in Brazil, the Middle East, Norway, Latin America, and in reemerging markets such as West Africa.

#### **Asia-Pacific**

- Represented 15% of total revenue for FY 2022
- Upswing in activity in the region, particularly in Middle East is expected to drive demand for subsea products and downhole tools

#### **Eastern Hemisphere**

- Represented 20% of total revenue for FY 2022
- Long-term CCUS potential through our partnership with Aker Solutions
- Activity in Norway is seeing an uptick in demand due to energy security concerns

#### **Western Hemisphere**

- Represented 65% of total revenue for FY 2022
- Strong growth in Brazil from Petrobras, which plans to invest \$78 billion between 2023 – 2027 with plans to drill ~350 wells
- Guyana and Suriname in the early stages of development for DRQ with follow on orders expected in 2023 and beyond

#### Note:

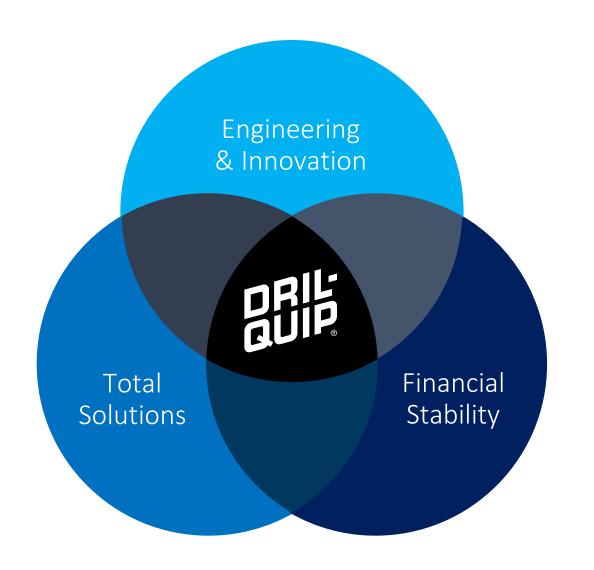

<sup>1.</sup> Western Hemisphere includes North and South America

<sup>2.</sup> Eastern Hemisphere includes Europe and Africa

<sup>3.</sup> Asia-Pacific includes Pacific Rim, Southeast Asia, Australia, India, and the Middle East

## Our Strategy | What Makes Dril-Quip Different

- Highly engineered, innovative solutions designed to withstand the harshest subsea environments, saving customers time and money on rigs
- Award-winning drilling and production products and services are utilized to provide total solutions for offshore field developments
- Long operating history and a clean balance sheet with zero debt provides strong financial stability

## Operational Excellence Initiatives | Progress Update

#### **Footprint Rationalization**

#### \$5 million - \$10 million expected annual savings

Additional progress has been made on footprint optimization plan to improve efficiency and reduce excess capacity

- Closed on the sale of Houston forge facility for gain on sale of \$17.3 million
- Secured two purchase & sale agreements for Dril-Quip's administrative and aftermarket buildings for a net gain on sale in the range of \$20 - \$30 million

#### Manufacturing Investments Targeting ~35% Gross Margins Improvement

#### \$10 million - \$15 million expected annual savings

Through operational excellence initiatives and realignment efforts, foundation of strong productline focused teams have been established

- Provides greater visibility, accountability, and improved ability to make smart, high ROI investment decisions
- Approved \$22 million wellhead manufacturing AFE - expected delivery in Q4'23 will drive savings

Q4 2022 2024 Exit 2023 Exit

# Strategic Operating Products & Services

## Our Business | Strategic Operating Product & Services

Dril-Quip is in the process of streamlining operations and leadership around more focused and integrated product and service lines in a manner that aligns with the strategy.

Market leader in subsea wellhead equipment and technology, manufacturing highly engineered, field-proven products with wide array of deepwater drilling equipment and technology that meets the requirements for harsh subsea environments

Provider of high-level aftermarket support and technical services with field technicians that support the full lifecycle management of regulatory and industry standards, as well as offering clients comprehensive industry training programs

Drilling and productions solutions provider for onshore and offshore markets, supplying consumable and rental downhole tool products for the global energy market and offering highly experienced personnel with extensive operational knowledge and engineering expertise

Business supported by Dril-Quip's expansion into high-growth decarbonization opportunities in our Energy Transition offering longer term.

## Robust Product Offering | Equipment

#### Wide range of innovative products serving the energy industry, even in the harshest environments

#### SUBSEA EQUIPMENT

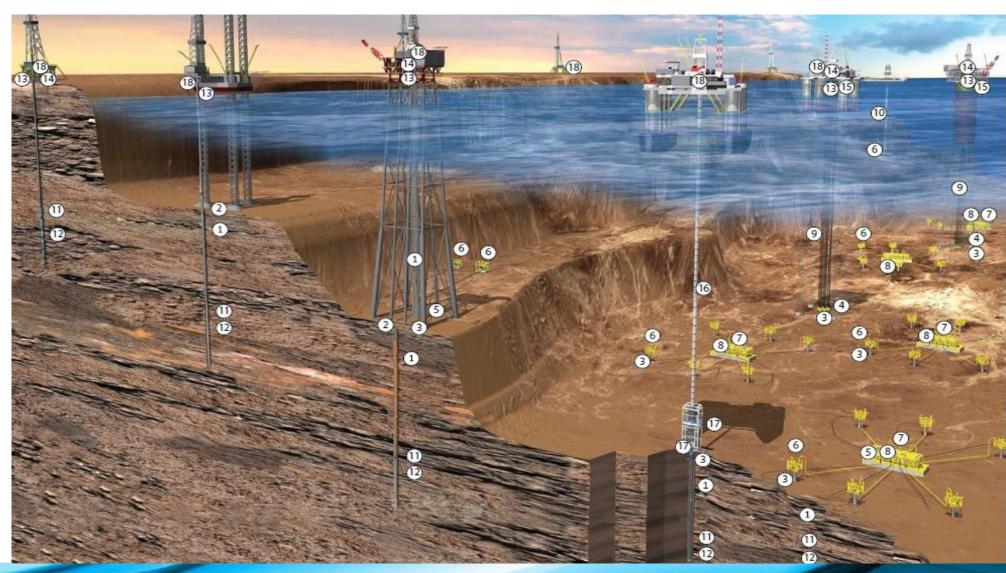

- Specialty Connectors
- 2 Mudline Suspension
- 3 Subsea Wellheads
- (4) Tie-Back Connectors
- 5 Template Systems
- Subsea Trees
- 7 Control Systems
- 8 Subsea Manifolds
- Production Risers
- 10 Completion Risers
- 11 Liner Hangers
- (12) Downhole Tools

#### SURFACE EQUIPMENT

- (13) Surface Wellheads
- (14) Surface Trees
- (15) Riser Tensioners

#### OFFSHORE RIG EQUIPMENT

- 16 Drilling Risers
- (17) BOP Stack Connectors
- 18 Diverters

## Our Business | Portfolio Positioned for Both On- & Off-shore

## Subsea Products | Profile

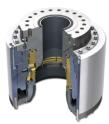

the power of Q

Manufacturer of highly engineered, field-proven products with a wide array of deepwater drilling equipment and technology that meets the requirements for harsh subsea environments.

#### Wellheads

 Field-proven wellhead system specially designed to meet the many challenges of working in shallow or deep-water environments and shallow or ultra-deep well applications

#### **Connectors & Surface Equipment**

- Specialty connector suite of products that meet the varying casing challenges faced across well applications.
- Solutions focused surface and capital drilling equipment that offer thee appropriate balance of technology and economy.

#### **Subsea Production Systems**

- Innovative drilling and production products providing comprehensive field development solutions
- Production Trees, Manifolds, Connection & Control Systems, Production PLEM's, PLET's, Flowline Jumpers

#### **Initiatives & Accolades**

- 673 Subsea Product patents
- Tier 1 wellhead provider
- Executing collaboration agreements
- Targeting shallow water and CCUS opportunities through SBTe offering

#### Subsea Services | Profile

the power of Q

Provider of high-level aftermarket support and technical services with field technicians that support the full installation and lifecycle management of regulatory and industry standards, as well as offering industry training programs.

#### **Aftermarket Capabilities**

- Partners with customers throughout the lifecycle including full installation, strip-down, inspection, testing, assembly capabilities
- In-house machining capabilities for manufacturing and repairing from the smallest components to full subsea tree blocks
- Comprehensive engineering, project and back-office support functions for seamless and continuous customer support

#### **Initiatives & Accolades**

- Highly reactive support for equipment installation
- Global network of trained technicians and specialized tooling
- Dedicated facilities for refurbishment and rework

## Downhole Tools | Profile

Downhole Tool provides solutions for onshore and offshore markets, supplying consumable and rental products for the global energy market and offering highly experienced personnel with extensive expertise.

#### Big Bore Expandable Liner Hangers -XPak De®

- Disruptive new product introduction
- Converting market from wellhead equipment
- Can be run with any wellhead provider
- Improved margins and revenue volume
- Excellent customer value proposition

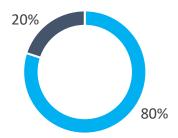

#### **Expandable Liner Hangers – XPak™**

- Features innovative liner top anchor/sealing device, providing unmatched reliability
- Robust system suitable for HTHP and challenging applications
- Established technology with limited competitors

#### **Conventional Liner Hangers & Other**

- Designed to run in standard liner applications
- Established field-proven products are widely accepted
- Tubular Running Services

■ International Onshore ■ Deepwater

#### **Initiatives & Accolades**

- 382 Downhole Tool patents
- Gaining share in key markets (Brazil, Guyana, US, Mexico)
- Converting from conventional to expandable liner hangers
- Focus on expanding presence in Saudi Arabia
- Targeting \$100M Annual Revenue Run-Rate

## **Energy Transition** | Long-Term Opportunity

Helping our customers adapt and evolve to the Energy Transition, while positioning DRQ to support these long-term, robust opportunities.

#### Positive reduction of carbon footprint

- Measurement/audit of carbon footprint across our product portfolio
- Next generation Power of  $e^{TM}$  incorporating Green by Design<sup>TM</sup>

#### Carbon conscious R&D

- Measurement of carbon footprint reduction per project
- Carbon footprint decision metric incorporated across operations
- Next generation Power of  $e^{TM}$  incorporating Green by Design<sup>TM</sup> innovation philosophy

#### **Low Carbon Solutions**

- Focus on CCUS markets
- Positive impact to carbon footprint through innovative technology application
- Develop adjacent markets to derive value

#### **eVolving industry**

- Less steel/materials
- Less transportation
- Efficient operations
- Effective manufacturing
- Increased competitiveness
- Lower carbon footprint

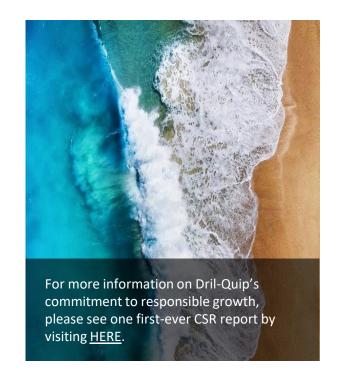

## **ESG** | Our Commitment to Responsible Growth

At Dril-Quip, we believe technological innovation is key to improving energy efficiency and providing people around the world with universal access to reliable, affordable, clean energy. By doing so, we stimulate economic growth and enhance the standard of living for all, improving health and creating employment opportunities globally.

With an "A" rating from MSCI ESG, Dril-Quip's approach to developing products that align with our commitment to UN Sustainable Development Goals (SDGs) is straightforward:

- We continuously **engage** with customers to understand their strategic priorities around energy efficiency and carbon emission reduction.
- We **invest** heavily in R&D as innovation has been central to technologies we have been bringing to the marketplace since 1981 and incorporate the evaluation of climate change risks and opportunities in our R&D processes.
- We innovate based on customer feedback and continuously improve our product portfolio.
- We empower customers to minimize health and safety risks while reducing their carbon footprint.
- We support our local communities by fostering the availability of clean, affordable energy to all.

# Financial Performance

## Recent Highlights | Fourth Quarter & Full Year 2022

## Strong fourth quarter and fiscal year, reflecting early participation in the ongoing upcycle in the offshore market

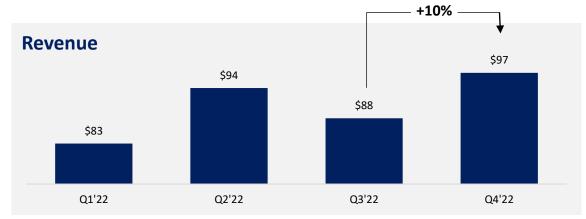

- Double-digit revenue growth in Q4 and fiscal 2022 with good sequential trends
- Double-digit bookings growth in Q4 and fiscal 2022 with additional upside from strong MSA additions
- Gross margin and adjusted EBITDA continue to improve, supported by continued progress on organic improvement initiatives
- Repurchased approximately \$20.8 million of shares during the year
- Announced a Collaboration Agreement with Aker Solutions to offer subsea injection systems for carbon capture, utilization and storage ("CCUS") projects
- Published first corporate sustainability report
- Announced Scope 1 and Scope 2 GHG emissions reduction target of 50% by the year 2030
- Received upgraded MSCI ESG rating of an "A"
- Closed on sale of Houston forge facility and entered into purchase and sale agreements for Houston's administrative and aftermarket buildings
- Committed investment of \$22 million in wellhead manufacturing that is expected in Q4'23

Quarter	Annual
Q4 Revenue	2022 Revenue
\$96.8 Million	\$362.1 Million
+24% YoY	+12% YoY
Q4 Net Loss	2022 Net Income
\$(0.3) Million	\$0.4 Million
+\$63.2 Million YoY	+\$128.4 Million YoY
Q4 Adjusted EBITDA	2022 Adjusted EBITDA
\$10.4 Million	\$30.0 Million
+\$9.8 Million YoY	+97% YoY
Q4 Bookings	2022 Bookings
\$93.8 Million	\$271.6 Million
+18% YoY	+19% YoY
Q4 Gross Margin	2022 Gross Margin
31.2%	26.6%
+979 BPs YoY	+160 BPs YoY

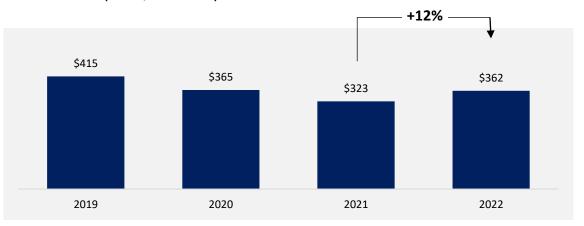

## Financial Results | Fourth Quarter & Full Year 2022

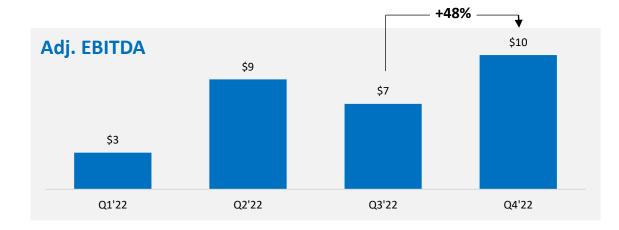

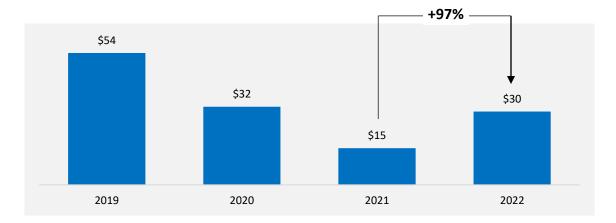

#### Full Year (USD\$ millions)

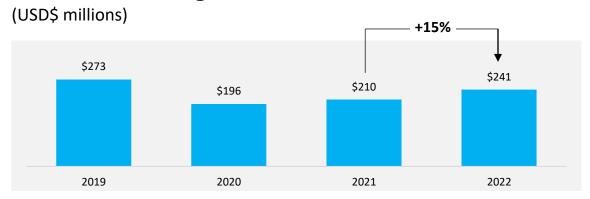

## Statistical Results | Backlog, Bookings, MSAs

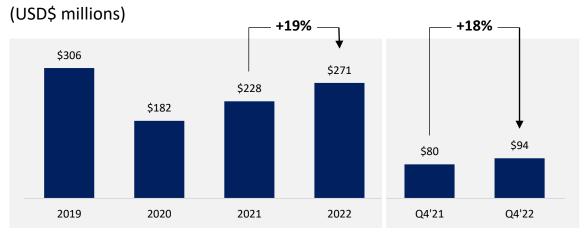

- 2022 backlog increased by 15% year-over-year as product bookings increased due to improving market conditions.
- Expected to fill ~70% 80% of current backlog in 2023, with the remaining amount consisting of longer-term projects.
- 2022 bookings increased by 19% as demand for products and services continues to increase in key markets.
- Signed \$122M in new MSAs during 2022. As of year-end, Dril-Quip has ~70 open MSAs.

#### **Historical Backlog Trends**

#### **Historical Booking Trends**

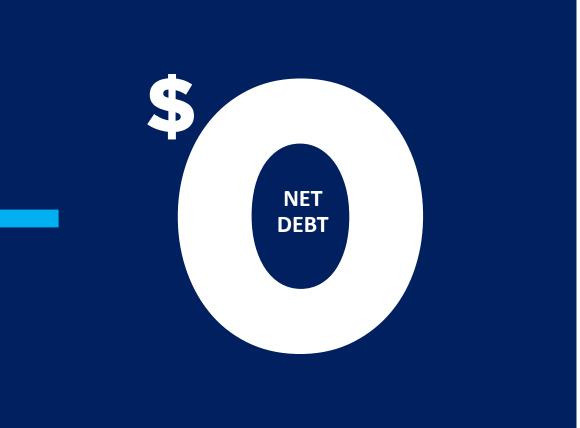

## Balance Sheet | Providing Ample Flexibility

Strong balance sheet with ample liquidity and zero debt provides flexibility to support our growth strategy.

## Capital Allocation | Priorities for Delivering ROI

Demonstrating financial discipline in the pursuit of high-return opportunities that support long-term growth, while preserving our balance sheet strength and financial flexibility.

1 High Return Organic Investments	2 Disciplined M&A	3 Preserve Financial Flexibility	4 Shareholder Returns
<ul> <li>Prioritize investment into high ROI projects</li> <li>Support organic growth initiatives</li> <li>Manufacturing, R&amp;D, etc.</li> </ul>	<ul> <li>Technology bolt-ons to enhance existing business</li> <li>Deals of scale that align with selective M&amp;A criteria</li> <li>Diversifying end market exposure with energy adjacent opportunities</li> </ul>	<ul> <li>Working capital to support operations growth</li> <li>Free cash flow generation focused</li> <li>Continue to maintain strong balance sheet</li> </ul>	<ul> <li>Focused on delivering sustainable, long-term growth</li> <li>Return cash to shareholders as appropriate</li> </ul>

## M&A | Disciplined Framework

#### Primary considerations for disciplined M&A

- Increases scale of operations
- Expanded geographic footprint
- Aligns with DRQ core competencies

- Above average long-term growth projections
- Capable of delivering consistently high margins
- High return on capital

- Technology bolt-ons to enhance existing business
- Deals of scale that aligns with selective M&A criteria
- Diversifying end market exposure with energy adjacent opportunities

## 2023 Outlook | Profitable Growth

Well positioned to continue to capitalize on the constructive offshore drilling market in 2023.

ANNUAL	PRODUCT	ADJUSTED	CAPITAL
REVENUE	BOOKINGS	EBITDA	EXPENDITURES
10% Growth	10% to 20% Growth	40% to 60%	\$25 million to \$30
over 2022	over 2022	Incremental Margins	million
